REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

BEW-007REI

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,343,006, granted 1/29/2002 and for which a reissue patent is sought on the invention entitled

COMPUTER DISPLAY SCREEN SYSTEM AND ADJUSTABLE SCREEN MOUNT, AND SWINGING SCREENS THEREFOR

the specification of which

☐ is attached hereto.

☒ was filed on January 29, 2004 as reissue application number 10/766,751
and was amended on _____
(if applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

One error which is relied upon to support the reissue application is that the only independent claim in the patent is directed to a modular display system comprising a base assembly and three support arms. A support arm includes a coupling assembly for supporting a panel. The Applicants believe that the coupling assembly on the arm and the corresponding coupling assembly on the panel that engages therewith are themselves patentable subject matter that was disclosed but not claimed in the patent. The Applicants now seek broadened reissue claims that enlarge the scope of the above-mentioned patent by including claims covering various features of the coupling assemblies.
